It is an animation theater, which uses the latest in cutting-edge technology, such as projection mapping, to show its programming on three giant screens!

Animation introducing the Great Deity Tenjin, also known as Lord Sugawara Michizane!  
We will present the life of Lord Sugawara Michizane, also known as the Great Deity Tenjin, in a way that is easily understandable to everyone. Two animated characters will guide you through our story: “Tobiume,” the spirit of an old plum tree that flew overnight from the old Japanese capital all the way to Dazaifu, and “Oimatsu,” the spirit of an old pine tree that rushed to make the same trip on land. The story will address culture and tradition the Japanese have fostered from mythological to modern times, while adding the element of the relationship between nature and human lifestyle. Lord Sugawara Michizane will also touch on the topic of global warming, a problem the entire world faces. So please enjoy this surrealistic story, set in a virtual world.

The voice of Lord Sugawara Michizane: Koichi Yamadera

Known as one of Japan’s major voice actors, Koichi Yamadera has dubbed his voice to animation films and other motion pictures that are popular around the world. His international popularity and talent are rated top class.
